Bed Lifting System

'Setting new standards in OH&S'

Patented in Australia
International Patents Pending

ROBUST STEEL FRAME - FITS TO YOUR EXISTING BEDS

Lifts beds to waist height
Guarantees Less Back Injuries

Vacuum under beds
Guarantees Cleaner Rooms

The Sunday Telegraph reported 18th Sept 2005

"...at a cost of almost \$250 million dollars worldwide, the Marriott Hotel chain has joined in (the war of the beds) with a bed called REVIVE."

"But pity the staff who have to make up these latest offerings by hotels. It is reported to be taking an extra three hours per week to do these huge deluxe beds."

"To assist, staff have been advised to make beds in the kneeling position to avoid back strain or injury".

FASTER BED MAKING ~ LESS STAFF COSTS

LESS TIREDNESS ~ EASIER WORKING CONDITIONS

HAPPIER WORKERS ~ LESS STAFF TURNOVER

Increasing competition in the hospitality industry is resulting in housekeeping staff now having an 85% higher risk of injury than non-housekeeping staff due to heavier, more luxurious beds.

The Ezi-Maid Bed Lifting System is an innovative new product that was designed to guarantee the reduction of injuries related to bed making. The device also makes it possible to clean under beds and provide a cleaner, healthier environment for staff and guests alike.

The Ezi-Maid Bed Lifting System fits to your existing beds and operates by an infrared remote control. The device lifts the bed up off the floor to waste height so housekeeping staff can make the bed standing up. Not only will this reduce the amount of injuries for the housekeeping staff, but also means that hotel owners can potentially expect significant reduction in workers compensation claims, resulting in increased profits.

Specifications:

Frame	1.6 gauge square tube steel
Bed Sizes	Single / Double / Queen / King
Weight	24 Kilograms
Motor	Self lubricating sealed electric motor
Voltage	230/110 volts
	4.5 amps
Transformer	24 volts
	0.7 amps
Safety	Upper and lower limit switches
Overload	Thermal and Electronic overload with auto reset
Remote Control	Infrared
Warranty	Frame 10 years
	Motor 3 years
